Options:

- Access platform
- Bin level indicators
- Manual or electric gates
- Inner venting
- Roof vents
- Load out platform
- Access ladder
- Custom bottom cones typically 40-60 degree range
- Installation

Ingredient Tanks & Standard Hopper Tanks

Hopper tanks and ingredients tanks offer a wide variety of uses for any storage, batching, or load out processes. IAP has the ability to produce ingredient tanks that hold a multitude of products and load out tanks that can be designed for farm use and also for commercial use. These tanks typically have a capacity of 500-6000 Bushels, with a variety of additional options to consider. Our tanks are designed in a modular fashion to allow for economical use of space. These tanks can also come with pre assembled support structures to ease in installation time and assembly. All of our tanks are a steel smooth walled construction that have the ability to be tinned and incorporated into buildings. Being that different facilities require a multitude of products our ingredient tanks have the ability to separate various ingredients per modaul. We also have the ability to customize the bottom cone angle to suit ant product. If you'd like a quote or more information please feel free to contact one of our sales representa-
